# *... reach up and Beyond*

To fill the mind, to stimulate interest, to broaden horizons, to raise and answer questions—these the challenges of teaching.

Our teachers have answered the challenge. They have taught us well and we are better for it.

They leave a challenge for the future—to reach up and beyond to a better world. The ladder of knowledge they have given us. Now we must climb.

# Lincoln High Administration

1963-64

MELVIN J. BOWEN  
Principal

Mr. Bowen's ability as an administrator is evidenced by the growth of Lincoln under his leadership, and the position that it now holds among the Des Moines Schools.

He has worked hard and now he can see what he has accomplished. Lincoln students are proud of their school. Mr. Bowen has done much to make it a school of which to be proud.

ROBERT WILSON  
Acting Vice Principal

Mr. Wilson has taken over the position of vice-principal left vacant by Mr. Dickson's death.

He is doing an excellent job in his new office, as well as continuing with all his duties as senior counselor.

IRIS ANDERSON  
Advisor

Miss Anderson is the kind of person who is always busy, and yet seems tireless. Whenever her aid is called for, she gives it freely and earnestly. Her help has done much to make a success of the many activities at Lincoln.

KATHLEEN SHIFFER  
Registrar

Seniors recognize Mrs. Shiffer as the woman who takes their requests for transcripts. Taking care of the many requests is a staggering job, yet Mrs. Shiffer also finds time to keep a record of all school money.

# Board of Education

DES MOINES INDEPENDENT COMMUNITY SCHOOL DISTRICT'S BOARD OF EDUCATION MEMBERS are, from left to right: Arthur Davis, Mrs. Roland E. Grefe, John R. Haydon, Herrold V. Mann, Secretary, Board of Education; Richard W. Lozier, President, Board of Education; Dr. John H. Harris, Superintendent of Schools; Ora E. Niffenegger, Mrs. Jack Spevak, and Dr. Floyd M. Burgeson.

**HELEN CLAUSEN**  
Nurse

Mrs. Clausen keeps a check on all student health problems. She hasn't been at Lincoln for very long, but she has already made many friends.

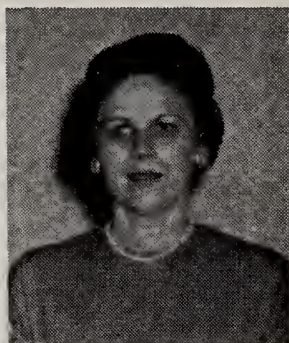

**HELEN HOLT**  
Librarian

Miss Holt is in charge of the school library, its reference section and magazine file. She is always ready to help student or teacher find needed information in one of the best libraries in the school system.

## Language Arts

### Are The Keys to Knowledge

The English language spreads more knowledge to more people than any other language in the world today. Especially in America a good knowledge of English is essential. To instill a fundamental knowledge of the language, both in writing, reading and speaking is the aim of Lincoln's language arts department.

Discussion groups explore the realms of many books.

Inquisitive minds are encouraged in active English classes.

# Foreign Languages Bring International Understanding

Erna Bevington

Vincent Boozell

George Chatman  
Spanish

Kathryn M. Kirkhoff  
Latin-Russian

In today's complex society no one can ignore the other countries of the world. An understanding of our world neighbors is essential if we wish to maintain peaceful conditions in the world. Foreign language students are attempting to develop this understanding on a level where it will be most effective, the language of the people of the world.

Members of the Russian Club prepare to sample some native dishes at their annual banquet.

Relishing the delicacies of French cuisine is an opportunity not to be overlooked.

Concentration to the utmost is revealed by students using the language lab.

## Mathematics

### Measure The Universe

From the infinitely large to the infinitely small, mathematics students study the full range. And even if they could study infinitely long, there would still be an infinite range of knowledge as yet undiscovered. Mathematics is one of the most useful sciences today. It is the yardstick by which man measures the universe.

Marg Bird exercises the preciseness of mathematics.

Busily constructing problems is an every day occurrence in math classes.

# Natural Sciences Bring The World to The Classroom

Natural sciences involve the study of the world we live in—its composition, its reactions to forces, and the processes of life which occur on it that make it different from all other worlds.

Measuring and math go hand in hand in physics.

Seniors measure acceleration due to gravity.

Under Mr. Kent's supervision, students seek to identify live bacteria.

## Social Studies Make Better Citizens

The social studies bring to the student a basic knowledge of his government, as well as the governments, both past and present, of other countries of the world. A knowledge of these governments, and the people who live under them, will help to give a fuller appreciation of the American democracy.

## Business Skills Aid In Future Work

The great majority of students taking the stenographic and commercial courses will use the skills they have learned in their future work. Preparing now, instead of waiting until they start work, will help these students to be working at a time they would ordinarily have to spend in training.

Prospective employees listen attentively as Gary Miller lectures on the principles of Distributive Education.

Practical application is available for clerical and commercial students.

Bill Henderson  
Instrumental Music

John Whaley  
Vocal Music

## *Vocal and Instrumental Music Develop Student Talent*

Both the vocal and instrumental music programs at Lincoln do much to bring out and develop the talent of the student. The band helps to build school spirit at football games and presents concerts to the student body. The choir adds much to the school activities in which it takes part.

Memorizing music takes hours of rehearsal if a program is to be presented successfully.

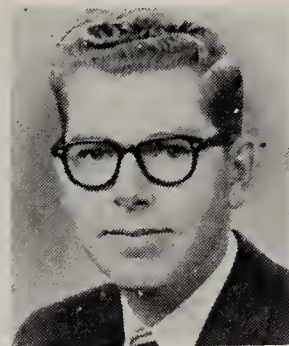

The old adage of practice makes perfect is exemplified by Mr. Henderson and the band.

# Arts and Crafts Stress Creativity

Few people have the creativity expressed by arts and crafts students. An examination of any of the department's display cases will show this. These two classes attempt to develop this creativity by a freer exchange between student and instructor than exists in most classes.

Phillip Allen  
Art

Phil Taylor  
Crafts

Twisting metal into unusual shapes and designs is Mr. Taylor, crafts instructor.

Working overtime is not unusual for our ambitious art students.

Developing many skills is only a small part of this department.

## *Industrial Arts* *Encourage Manual Work*

Many people today are concerned in at least some part of their occupation with manual work. An attempt to develop these skills to their furthest extent is made in these classes. Improved manual dexterity as well as an understanding of methods and tools of the field are given to industrial arts students.

Building beautiful furniture is easily learned by those who take Wood Shop.

Students portray attentiveness necessary for a successful metal shop project.

Mechanical drawing provides a preparatory class for those interested in becoming draftsmen.

## Home Economics Prepare Future Homemakers

Nearly every girl hopes someday to have her own home. In order to be a better homemaker she must know and understand what she is doing. This effort to prepare the girls for the future is not only wise, but necessary.

A. Irene Moroney  
Homemaking

Patricia Schwartz  
Homemaking

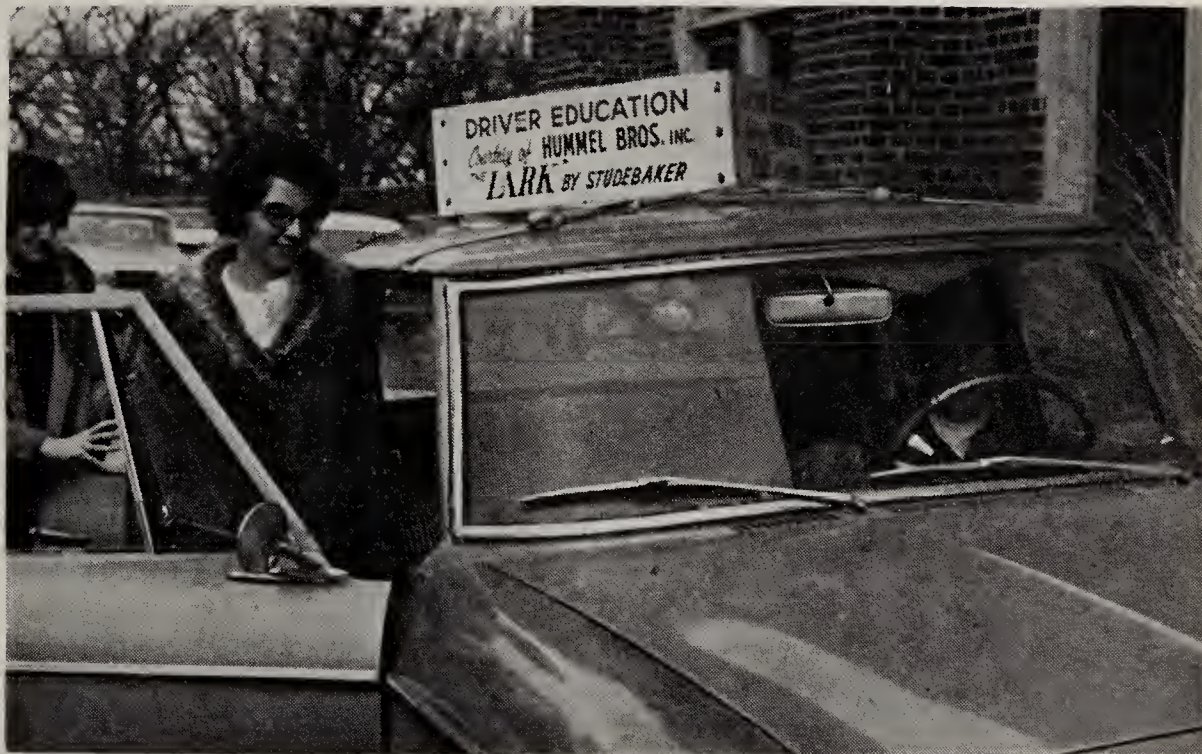

Students prettily display a unique table setting in Home-making.

Eldon Peterson  
Driver Education

## Drivers Education And Good Drivers Go Together

The teen of today has a notoriously bad driving record. Driver's Education students are making an effort to prove that this reputation should not apply to all teens. They learn basic driving skills as well as a knowledge of driving laws.

Driver Training students learn how to become good law abiding drivers in Mr. Peterson's classes.

## Physical Education Brings Physical Fitness

Today there is much emphasis on physical fitness. Exercise is important and many other skills are learned through active sports participation in physical education classes.

Physical Education

Muscle-building exercises are a part of the daily activities in gym classes.

Girls also participate in a rigorous activity of exercises.

Pool facilities provide excellent training in water safety, swimming and fun.

# Counseling

## Helps Students and Teachers

Counseling today is such an important part of the Des Moines school system that each school has a staff of full-time counselors. Counselors help students plan their courses in high school, and prepare for college, vocational training, or work after high school.

Seniors are seen seeking Mr. Wilson every day as problems of college and vocation reach the time of decision.

Mr. Pritchard also spends a great deal of time considering the proper courses for students.

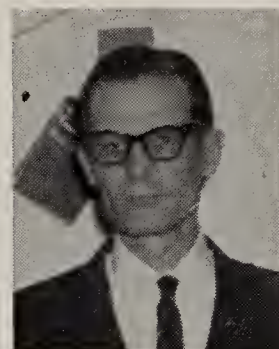

Launching high school careers takes many decisions and conferences for Mr. Opel.

Virgil G. Fox

Gordon W. Opel

Joseph Pritchard

Robert E. Wilson

Proper vocational preparation often depends on many revisions of schedules and long hours of counseling for Mr. Fox.

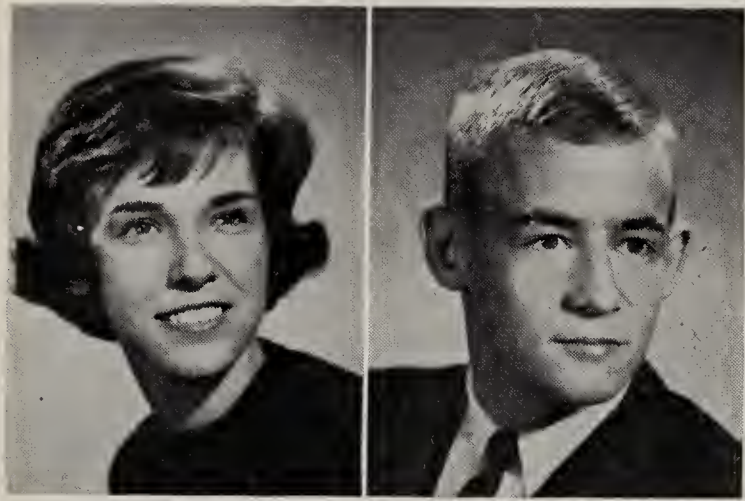

# *... Something goes with us*

1963-1964—our year. We had watched the other classes—running things, having fun, walking through the arch, clutching the maroon and gold ribbon. Wishing we were seniors but glad we had another year. Now we are doing what we had watched.

We have done what we could and now we must go. Something of ourselves stays with Lincoln and something of Lincoln goes with us.

# *... give to these Halls*

Give life to our memories and they will become your memories.

We leave the halls echoing what we have done—the triumphs and frustrations, joys and pains, laughter and tears. We leave slowly, wondering—what can they do and will they do it?

Give to these halls all of yourself—climb horizons to new accomplishments and these halls will echo you.

Mr. Bill Henderson  
Band Director

Marching through mud is never very pleasant. Occasionally, during the fall, band members do it to bring spectators at football games an interesting half-time show. During the winter they work to prepare a program for exchange concerts as well as a concert for our own student body. In the spring their efforts are joined with those of the vocal music department in the Spring Music Festival.

Mr. Henry Sanders, Railsplitter adviser, stresses a point covering publication problems.

The Railsplitter, Lincoln's own semi-monthly newspaper, exists to publicize the school and to give a picture of Lincoln, and to give students a chance to put to practical use the English skills they learn in class. This simple-seeming task is complicated by deadlines, make-up, and copy-reading. Trying to publish a paper can bring headaches, but, as any journalism student will testify, it can also bring rewards.

Putting together a 184 page book that is, in effect, a picture of the school can be a staggering task, probably the hardest part of which is coordinating everybody's efforts. Things never move smoothly. Things are never easy. Yet, in spite of this, the staff manages to produce the book. You hold this book now in your hands. If the book appears to you a picture of Lincoln High School, the staff has done it's job.

Act 1: George volunteers to let  
 Muriel row—he's tired. Muriel  
 is confused.

Act 1: Don't spit on the producer  
young thespians admonish George.

The trials of six young actors and actresses struggling for a "break" in New York were featured in the school play.

Act II: "But she isn't dead," young actors explain to policemen who discover Murial with a bloody knife in her chest.

Act III: Mrs. Garnet applauds Mr. Coburn as he runs for his quiet hotel room.

CURTAIN CALL, left to right: Chuck Jones, Randy LeCocq, Barbara Dick, Judy Lewis, Jean LeRoque, Pat Kellogg, Jim Noland, Allen Essman, Linda Carroll, Maria Colacino, Dave Meadows, Fred Perry.

Katharina, the wife of Paris (Andrea Moore) dares to wield her broom at the almighty Jupiter (Allen Essman), as the Court Fool (Sharilyne Wagner) watches the misunderstanding she has caused.

## *Paris Decides— Venus or The Shrew*

The First Mrs. Paris, a one act play, was presented before the Lincoln High School student body, January 29. The play was a farce of the classical myth of Paris And The Golden Apple. A shrewish wife plus quotations from William Shakespeare's Taming Of The Shrew added to the many humorous incidents.

This play won a superior rating in the 34th Annual Drake Play Festival.

Paris (Jim Noland) is enraptured by the three beautiful goddesses, Juno (Elsie Fenner), Venus (Jean Thomas), and Minerva (Linda Carroll). Mercury (Maria Colacino) quietly observes the situation.

# *... Hearts go to the air*

The soul of the school in a burst of speed, a ball in the air. The school held together by boundary of court, field or lane.

Pushing, straining, always to do better. Harder, harder, harder. Glory in sweat and pain.

Go, go, go. Win, win, win. Hearts in the air. The elation of winning, frustration of loss.

Yelling or running we gave what we had.

## CONSIDER... **A CAREER** ...NOT A JOB

**W**hen looking ahead to your business life, you want to think beyond just a job. Consider the kind of business career you want and judge the qualities of the company which is a part of that business. Life Insurance is a good business and the Equitable Life of Iowa is a good company — offering so many opportunities for the career man or woman.

Look into the Equitable, and you'll find all of the so-called fringe benefits offered by business generally, plus some that only Equitable has for you. Most importantly, there are so many phases of life insurance

work that your opportunities for advancement and permanency are limited only by your own ability. In the Personnel Office, 1105 Equitable Building, you'll find Miss Pat Bush — discuss with her all the opportunities that exist for you at the Equitable — you may choose your career right now.
